Our conference program: informative and groundbreaking

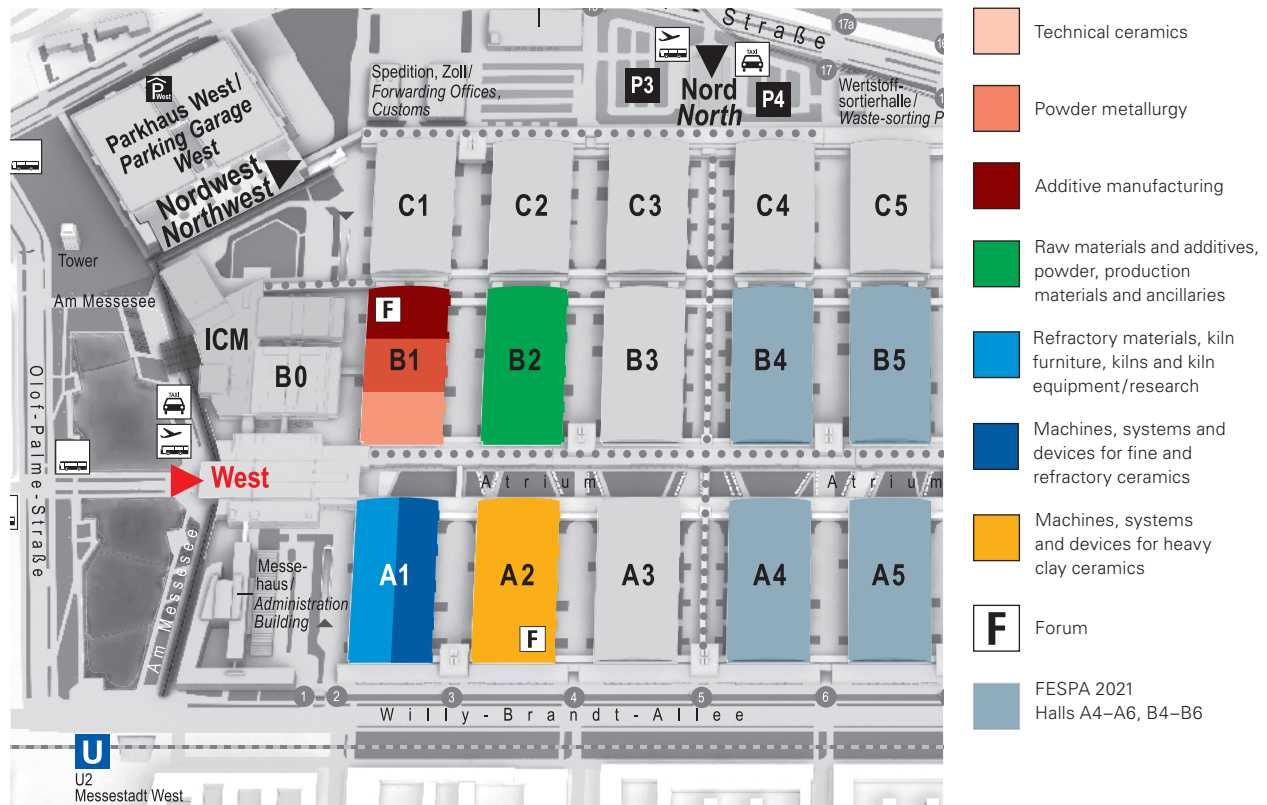

Our conference program will provide reliable answers to current and future questions on every product segment represented. This is the place to intensively discuss general topics such as the increase of investment and profit potentials or the use of synergies and cost efficiency. In addition, top experts will provide information about the latest trends and challenges of the coming years and give an outlook on the promising development of your industry.

Our tip: Secure the high potentials of the industry for yourself! On ceramitec's CareerDay you will have the opportunity to present your company and meet junior staff and managers in person.

Hall structure: new and optimized

We reorganized the product segments for ceramitec 2021 to make better use of the synergies of the individual sectors and thus intensify the flow of visitors.
