

**Covid-19 health and safety protocols in accordance with  
B7 of the Special Terms for Participation (B)  
Stand design and use (Last revised: April 2022—subject to change)**

With the changes of the Infection Protection Act (IfSG), protective and hygiene measures are no longer mandatory.

Messe München nevertheless recommends that its visitors and exhibitors adhere to safety standards that have now been learned for their own protection and that of others. This includes, among others, continuing to wear a mask voluntarily and keeping a minimum distance.

**If you show signs of illness that could indicate infection with SARS-CoV-2, please refrain from attending our events.**

**MESSE MÜNCHEN ALSO RECOMMENDS THE FOLLOWING SAFETY STANDARDS**

- **Mask**  
Recommendation to wear a FFP2 mask or a medical mask on the exhibition grounds (inside).
- **Minimum distance of 1.5 metres**  
Recommendation to maintain during the entire event a minimum distance of 1.5 metres between persons who do not belong to one's own household.
- **Washing hands**  
Washing hands is a simple and effective measure that can protect against infection.
