### **Exhibitor and visitor surveys**

Once again, the market-research institute GMM Gelszus Messe Marktforschung is conducting anonymous exhibitor and visitor surveys at this year's fair on our behalf. We kindly ask you to have the questions answered by competent employees of your company in order to be able to make as accurate statements as possible about the course of the fair. The questionnaire will be brought to your stand on Thursday, June 23, 2022 and picked up again later that day (end of fair).

The results of the survey will also be included in the final report on the last day of the fair. We would be grateful for your participation. Thank you.

### **Visitor registration**

As in the past, all visitors who attend automatica including your customers will be registered.

automatica has a ticket portal that takes the latest data-protection guidelines into account. Your customers will be guided through online registration step by step.

The advantage: Your customers save valuable time when entering the trade show. Waiting and entry times on site are eliminated.

Please keep in mind that this admission ticket does **NOT** entitle AUTOMATICA visitors to use Munich's public transportation system to travel to the trade-fair center.

### **Filming and photographing exhibition stands**

Photography, film/video recording and sketching on the grounds of the trade-fair center are only permitted by individuals who are authorized to do so and who possess a valid permit issued by Messe München. Filming or photographing the stands of other exhibitors is not permitted under any circumstances. That also applies to the grounds and structural facilities of Messe München GmbH.

Generally speaking, photography is not permitted on the grounds of the trade-fair center. The following photographers and film/TV production companies are officially authorized to be on the grounds of the trade-fair center:

**Photographers**  
Holger Rauner

Tel. +49(0) 1728622131  
E-Mail: [holger.rauner@googlemail.com](mailto:holger.rauner@googlemail.com)

**TV & Video services**

E-Mail: [redaktion@mediaboxtv.com](mailto:redaktion@mediaboxtv.com)

Photographers other than those listed above who are working on behalf of exhibitors must apply for a photo permit from the Security Office for a fee. To receive a permit, exhibitors must be able to identify themselves as such (please have exhibitor pass and personal ID ready), and photographers and film teams must present written authorization from the exhibitor that hired them (please have personal ID ready). A flat-rate fee of EUR 50 (incl. VAT) per exhibitor or per job order must be paid in cash or by EC Card.

Photography and film permits are required for the duration of the entire fair including the setup and dismantling periods, i.e. from June 13 to 27, 2022. You or the photographer working on your behalf may pick up your permit from the Messe München Security Office, Administration Building (access via Gate 1) as of Monday, June 13, 2022.

During opening hours, the members of the film or photography team need valid exhibitor tickets to gain access to the trade-fair center. During opening hours for exhibitors, photography and film recording is only permitted at the exhibitor's stand. Extending those activities into the aisles and obstructing the flow of visitor traffic is not permitted.

A security guard must accompany the film/photography team after hours (after opening hours for exhibitors). Security guards from the Security Service may be booked via the Exhibitor Shop or ordered by telephone (Tel.: + 49 89 949-24500). The minimum order is 2.5 hours. We recommend placing your order early. The party placing the order (exhibitor or photographer) must bear the costs themselves. When the trade fair is closed at night, the photo/film permit also serves as a permit for gaining access to the trade-fair center. An exhibitor pass, visitor voucher or the like is not needed.
